\$27 MILLION INVESTMENT IN WATERSHED INITIATIVES AND WETLAND PROJECTS

info@watershedsecurity.ca info@watershedsecurity.ca <info@watershedsecurity.ca> 18 September 2020 at 13:35

Dear Watershed Security Coalition Supporters,

We did it!

Thank you for your efforts supporting the WSC's proposal to the BC government calling for an investment in watershed security as a core focus of economic recovery for British Columbia.

Our letters and meetings with the government over the past 6 months have paid off. Yesterday, the B.C. government announced an investment of \$27 million in watershed initiatives and wetland projects across the province as a part of BC's Economic Recovery Plan. This announcement is an important first step for watershed security in B.C. and we look forward to continuing to work with you to ensure we get a long-term funding investment in BC's watershed security through a dedicated Watershed Security Fund.

The Watershed Security Coalition has a Press Release on the Economic Recovery announcement and can be found on our website [here](#).

We have also created a graphic that can be shared on social media to celebrate your role as a supporter of the coalition.

Thank you again for your support and hard work defending our waters.

Sincerely,
BC Watershed Security Coalition Members
