Re: Official Community Plan Feedback Letter

Greetings Board Members,

Thank you for your feedback on the OCP that Council considered at their July 21, 2021 Regular Council meeting. At that meeting Council passed the following motion:

That the letter from the Cowichan Watershed Board be forwarded to MODUS, the Environmental Advisory Committee and the OCP advisory working group.

The Environmental Advisory Committee (EAC), considered your letter at their August 17, 2021 meeting. EAC members want to thank and acknowledge your ongoing and extremely valuable work on behalf of the Cowichan Watershed and the biodiversity needed to sustain it. Your input to the OCP discussion, and OCP policy direction you suggested were heartily endorsed.

We want to sincerely express our appreciation for the time and effort you have spent on the Cowichan Watershed Board and acknowledge the time it took to share your input regarding three of your five principles to guide the OCP update. It was valuable and greatly appreciated and contributed a lot to discussions among the EAC members.

We encourage you to continue to participate in the OCP update project, and provide your input as part of the remaining community engagement processes.

Thank you for your participation.

Sincerely

Councillor Kate Marsh
Environmental Advisory Committee Chair
