Hi Jill – I left you a brief voicemail but thought I would follow up with a few more details. Alberta's 11 Watershed Planning and Advisory Councils (WPACs) are having a virtual summit in October. We are having 4 webinar sessions over 4 Friday's. Our second session, on October 15, will focus on how we can strengthen collaboration between WPACs and Indigenous communities. I have read about the Cowichan Watershed Board's unique governance structure. In particular, I am impressed with the Pathways and Partnerships document and was hoping someone from your organization would be able to join us and provide a 20-30 minute presentation on Oct. 15? If this is something you would be interested in, please don't hesitate to give me a call and we can discuss it a bit more.

Best regards,

Petra Rowell
